Portfolio: **rachel-portfolio-final.vercel.app**

PROFESSIONAL SUMMARY

Final-year UI/UX design student at Symbiosis Institute of Design, Nagpur, focusing on cognitive psychology, qualitative user research, and scalable design token architectures. Experienced in translating user friction into intuitive digital interfaces, verified desktop operational consoles, and cross-platform design systems. Actively seeking a **UI/UX Design Internship starting January 2027**.

EDUCATION

Bachelor of Design (B.Des) — UI/UX Design 2022 – 2026 · Final Year

Symbiosis Institute of Design (SID), Symbiosis International University (SIU), Nagpur

- Specialized in User Studies & Design Research (USDR), Design Systems, HCI, Information Architecture, and Usability Testing.

WORK EXPERIENCE

UI/UX Design Intern June 2024 – July 2024 (2 Months)

Livyana Fashion & Arts · Nagpur, India

- Designed end-to-end responsive web interfaces and interaction user flows for the **Miss Nation** digital platform.
- Conducted user and competitive analysis to formulate wireframes, sitemaps, and interactive prototypes in Figma for stakeholder reviews.
- Designed high-impact digital campaign creatives and promotional visual assets aligned with brand guidelines.
- Collaborated with developers to ensure pixel-perfect layout execution, responsive fidelity, and smooth asset handoff.

FEATURED PROJECTS

GoUni — Study-Abroad Student Support Platform & Design System Solo UI/UX Designer

- Designed an end-to-end student support platform to help international applicants discover universities, compare programs, and track application milestones.
- Architected an integral, scalable Figma design system using design tokens, variables, and Auto-Layout 5.0 multi-state component variants.
- Created a 6-stage UX storyboard and validated task completion through think-aloud usability testing, confirming intuitive comparison and reduced decision fatigue.

The Healing Circle — Healthcare Physician Well-being System Co-Lead UX Researcher & Systems Designer

- Conducted in-depth qualitative field research (co-authored with Vidhi Ambade) investigating clinical empathy fatigue and digital burnout among hospital physicians.
- Interviewed 3 specialist clinicians (Pediatrics, Gastroenterology, Forensic Medicine) to identify recovery needs and screen aversion triggers.
- Designed a concentric ecosystem featuring sound-dampened physical debrief sanctuaries, 4 low-friction micro-rituals, and a 5-stage hospital journey.

PawBridge — Animal Shelter Operations & Public Trust Platform Solo UI/UX Designer & Prototyper

- Designed a dual-sided platform: a high-density desktop operations workspace (1440×1024) for shelter triage and a transparent donor portal.
- Researched supporter hesitation psychology, tying public contributions directly to verified clinical recovery milestones for complete transparency.
- Engineered a keyboard-first intake triage workflow for shelter staff, validated through an interactive prototype and live Vercel deployment.

SKILLS & SOFTWARE TOOLKIT

UX Research: User Interviews, Personas, Journey Mapping, Usability Testing, Heuristic Audits.

Interaction Design: Wireframing, Rapid Prototyping, Micro-interactions, User Flows, Smart Animate.

UI Design: Visual Design, Typography, Layout & Grids, Design Systems, Tokens, WCAG AA.

Tools & Emerging: Figma, Illustrator, Photoshop, After Effects, Canva, Blender, Unity, Antigravity IDE.

LEADERSHIP & CAMPUS INVOLVEMENT

- **Head of Dog Fest (Symbiocare)**: Spearheaded campus-wide animal welfare event planning, volunteer coordination, and logistics.
- **Active Member**: Movie Club, Campus Event Decoration Team, and Public Relations (PR) & Communications Team at SIU Nagpur.
